NOTHING SUCCEEDS LIKE SUCCESS.

THE FIRST HAIR-SAVER.

Why Is

Newbro's Herpicide a success?

Because it has the

"Force" or capacity to produce an effect.

What is the effect?

The destruction of the invisible, vine-like, microbe

growth that lodges in the sebaceous glands of the hair

follicles, where its growth and development causes dan-

druft, itching scalp, falling hair, and later incurable

baldness.

Is Herpicide pleasant to use?

Clean as crystal, Newbro's Herpicide is the simplest,

most delightful and refreshing application ever prepared

for the scalp. It contains no oil, grease, sediment or dye

matter. Careful people who now consider it a duty to use

a scalp prophylactic, to insure cleanliness and freedom

from dandruff contagion, prefer Newbro's Herpicide on

account of its extreme purity, exquisite

fragrance and refreshing quality. Ladies,

in particular, become enthusiastic over it,

because it keeps the hair light and

fluffy and gives it a silken gloss.
